Key features

Everything Important at a Glance

We redesigned the homepage for you! A modern design and practical features are intended to make your workday easier. From now on, you will be redirected to the dashboard after logging in. Start your activities in the corporate clients portal from here. Try it out and experience the new possibilities even outside of Global Payment Plus.

Define your Dashboard-Elements

Customize your dashboard according to your needs: choose from a variety of elements to keep the most important information at your fingertips. Furthermore you will get current announcements, technical notices, and news about the corporate customer portal. Regardless of where you are in the corporate client portal, clicking the Commerzbank logo will navigate you back to the corporate client dashboard.

Your Quick Links

With just one click, you can access Global Payment Plus or the FX Live Trader - simply by individually configuring your personal quick links on the dashboard. We have already preset your previous quick link for you - you can add more at any time.
